# COVE™

Cove™ is a user-friendly and effective privacy screen. This lightweight, solid colour solution simply slides on and off standard desks and tables without the need for additional fixings. Cove not only creates on-demand privacy, but also absorbs reverberation – dampening background noise and promoting a focussed workspace.

Cove can slot into any interior environment, with three designs and a range of contemporary colours – it can stand out or blend in as you need. Cove is preferred in both the commercial and education sectors for its ability to easily transform shared workspaces into private desks.

Because all spaces are different, we've given you creative freedom. If you have a particular custom design in mind, our design team are on hand to turn your vision into a reality.
