

ZINTRA® ACOUSTIC BLADES

ZINTRA® ACOUSTIC BLADES

WHAT ARE ZINTRA® ACOUSTIC BLADES?

Zintra® Acoustic Blades are a range of pre-fabricated, wall mounted systems that showcase Zintra's unique, rigid, yet flexible characteristics. Combining aesthetic appeal and acoustic performance, these systems are supplied ready to install with minimal fuss. The increased surface area of the vertical blades presented to the room results in a greater absorption of sound compared to flat panels.

ZINTRA® BLADES FEATURES

- Easy to install with supplied hardware
- α_w 0.95 / NRC 0.90
- Customizable height and width
- Ability to mix and match blade colour and shape
- Create custom designs and shapes
- Flat packed for cost effective transport
